

A view of the beach at Hengist Field Care Home

Our resident Mary at Hengist Field Care Home was over the moon with the new wall picture we added in her room recently.

The picture is of a **window with a view** and Mary said it reminded her of her visits to the beach in Spain where she used to go every spring and autumn time; she said she loved to paddle and experience the feeling of the sand around her toes!

These window pictures are proving popular in our **Home** and we are so pleased Mary likes her new addition!
