

Brilliant bird feeders at Hengist Field Care Home

On Monday 18 January we had a fun-filled day with our residents at Hengist Field Care Home making bird feeders for our garden.

Our ladies and gents tried two different designs. Some made theirs using a **toilet roll** which they spread with **peanut butter** and then covered in bird seed. Others used **pipe cleaners** to thread **breakfast cereal and fruit** onto, before tying the ends together.

Everyone thoroughly enjoyed the activity – even getting messy with the peanut butter and licking their fingers!

The finished bird feeders will be fantastic in our garden and no doubt attract lots of hungry birds.
