

Courtyard garden wildlife at Hengist Field Care Home

We have been busy recently enhancing our courtyard garden here at Hengist Field Care Home.

We have transformed it into a colourful wildlife-inspired space, featuring **flamingos, a heron, butterflies** and **bird statues**, which our residents have had fun exploring and interacting with.

David thought it was hilarious when we said he was a '*chick magnet*' and really played along whilst enjoying a cold beer!

Eileen, Marie, Daphne and Mary made the most of the new additions in the fresh air and sunshine, whilst our other ladies and gents can appreciate them from our lounges and dining room windows.

We think David Attenborough would approve!
