

Creative arts and crafts afternoon at Hengist Field Care Home

We enjoyed a wonderfully colourful afternoon of arts and crafts here at Hengist Field Care Home on Tuesday 24 January.

Our residents made and painted **bee and butterfly feeders, dog flower pot holders** and **bird and insect houses**.

One of the dog flower pot holders ended up with two heads when being made and didn't have a tail, which everyone found hilarious!

As always, it was great fun with **plenty of laughter and conversation**, and we are delighted with our finished pieces.
