

Hengist Field Care Home ladies enjoy flower arranging together

On Wednesday 22 January a group of our residents joined us in our Activities Room here at Hengist Field Care Home for a spot of flower arranging.

We asked our ladies if they would like to choose flowers from the table that they liked – and away they went!

They enjoyed cutting stems and arranging their flowers into their oasis inside the baskets they had chosen.

As you can see, there was a lot of concentration and thought going into the process on the day. Our lovely ladies had a super time together and created some beautiful floral arrangements, which look lovely in our **Home**.
