

## Fun with optical illusions at Hengist Field Care Home

On Tuesday 16 April our Hengist Field Care Home residents had great fun with some optical illusion pictures.

We had a selection to try; with some you needed to **count how many animals** you could see, others required you to **squint your eyes** to see the real picture, and some you needed to **guess what you were looking at!**

We all had a great time deciphering some fantastic optical illusions.

**What do you see?!**
