

## Gardening Club at Hengist Field Care Home

**Here at Hengist Field Care Home we are getting ready for spring!**

We have a **new potting shed** going up in our garden with **plenty of tools, gloves, soil and the many seeds** we brought back from our trip to Dobbies Garden Centre.

So on Friday 24 March we started doing some potting together during our Gardening Club – **mustard and cress, tomatoes, rocket, flowers** and lots more.

Our lovely residents want to grow their own fruit, vegetables, salad items and lots of flowers. Now we have made a start, there will be no stopping us! The **weather is getting warmer** and we can start venturing outside so our residents can start planting in our designated area in our courtyard garden.

There are **plenty of green fingers here at Hengist Field** and they can't wait to get stuck in – *Charlie Dimmock and Alan Titchmarsh have nothing on us!*
