

Hengist Field Care Home residents enjoy some fabulous flower arranging

This week at Hengist Field Care Home our lovely residents spent an afternoon doing some flower arranging.

We used some beautiful coloured and fragrant blooms including **roses, carnations, lilies** and **scented foliage**.

Flower arranging is enjoyed by everyone; it seems that the scents and colours are always uplifting and our residents always love to design and arrange their own **gorgeous creations**, which are placed around our Home for all to smile at, admire and smell.

Blooming lovely!
