

## Oodles of noodles at Hengist Field Care Home

On Friday 22 January our residents at Hengist Field Care Home had fun playing with and moulding craft noodles.

They might look like the **Wotsits**, but these little craft pieces have greater skills! You can **wet them** and **stick them together** to create whatever your heart desires! And that's exactly what our residents did during the morning.

From their **favourite flowers**, to their **favourite foods** we had lots of fun making foam models together. We even created **cute little chicks** to love!

What a talented bunch of sticky-Wotsit-noodles-crafters we are! *Great fun!*

Our residents enjoyed creating fun noodle shapes
