

Residents put their noses to the test at Hengist Field Residential Care Home

Last week, our ladies and gents at Hengist Field Residential Care Home had a lovely time smelling, guessing and reminiscing about the scents they smelt.

We played a brilliant '**Who Nose?**' game which included a number of different pots with **stimulating scents** to smell, with hint pictures to give us a clue as we tried to guess each one – from **melon** and **mothballs**, to **rose** and **raspberry**!

There was lots of fun and group conversation as we tried the different pots.

The most popular scents were the sweet ones – **bubblegum**, **orange**, **chocolate**, **strawberries** and **honey**. *Mmmmm, delicious!*

Name that smell!
