

Reuniting loved ones at Hengist Field Care Home

Everyone here at Hengist Field Care Home are delighted that we can safely reunite our residents with their family and friends after being separated for so long due to lockdown restrictions. We host the visits in our light and airy Orangery Lounge.

We are very careful to observe **safe social distancing and PPE protocols** at all times during these visits. Pictured above-left is our resident Doreen Jones with her good friend Janet; On the right is our resident Adelaide with her son.
