

Sensory puzzles and arts and crafts at Hengist Field Care Home

On Saturday 8 April with our Horsa community at Hengist Field Care Home, we had a mixed morning of different activities to stimulate our hands and minds.

We played some **sensory games** and held different sensory objects including squidgy balls and different items of fruit. We also enjoyed some **puzzles** and **Easter bunny themed arts and crafts**, which look so cute and fluffy!

Everyone enjoyed trying all the different activities and there was plenty of concentration when our residents were **playing games on our iPad**.

A really fun and interactive morning.
