

Very hungry caterpillars arrive at Hengist Field Care Home

We are delighted to say our pots of Insect Lore caterpillars have arrived at Hengist Field Care Home.

*These tiny creatures will eat their way through the contents of their pots over the coming days and we are excited to watch how they develop into chrysalises, and then **emerge into beautiful butterflies** which we can observe from a special net habitat.*

Once we have enjoyed them for a few days, we will set a day to release them and **set them free in our garden.**

In just a few days, the caterpillars have already grown so much! *They are indeed 'very hungry caterpillars'!*
